OBJECTIVE

To leverage my extensive experience and strategic leadership skills as a Director to drive organizational growth, enhance operational efficiency, and cultivate high-performing teams within a dynamic and innovative environment. Committed to delivering impactful results through collaborative decision-making, effective resource management, and continuous process improvement.

EXPERIENCE

Remote
2023

LMS Consultant/ Analyst
Mind Petal

- Managed LMS implementation projects, ensuring timely delivery within scope and budget.
- Conducted user training sessions and provided ongoing support to optimize LMS usage.
- Analyzed data to identify trends and recommend improvements for enhancing learning outcomes.
- Collaborated with cross-functional teams to streamline processes and enhance system functionality.
- Ensured courses are 508 Compliant

Remote

Director / Probono Consultant
Milan Digital LLC

- Develop and execute a strategic roadmap for the dating app's product (anumilan.com) development, aligned with company objectives and market trends.
- Proactively identify potential risks and challenges in product development, and implement mitigation strategies to ensure timely delivery of high-quality, market-ready features and updates.
- Lead the ideation, conceptualization, and implementation of innovative features and functionalities to enhance user experience and differentiate the app in the competitive dating market.
- Establish key performance indicators (KPIs) and metrics to measure the success and impact of product enhancements, and utilize data-driven insights to inform decision-making and prioritize future development efforts

Remote
2018 - 2023

SkillOns

- Launched LMS web application, haven't made any revenues yet
- Developed and marketed the app
- Managed employees on need be basis , overseeing daily operations and strategic decision making
- While my venture unfortunately did not secure funding, the journey encompassed invaluable lessons spanning product demonstration, design, development, and testing. Despite the competitive landscape within the industry, the experience provided abundant opportunities for growth and learning.
